**REPORT**  
Of  
**Visit to Bee Keeping - Self Earning Project**  
**Date-08/10/2015**

Bee keeping practice is also called as Apiculture. Khadi Gram Udyog , the government aided commission of Maharashtra inspired the farmers and graduate students to undertake this project as self earning activity. Nowadays, it has been established as small scale agro-industry since various bee products on commercial basis. Pharmaceuticals, cosmetics, cottage, construction industries need the various bee products on large scale. To meet this need and besides agriculture to establish self earning practices in rural area the bee keeping has wide scope to elevate economy of rural people. One day visit was made to apiary at savargaon, near YCMU, Nashik under the scheme sanctioned by Board of Student Welfare of Savitribai Phule Pune University to procure introductory informations and demonstration to graduate students. Including Science, Arts and Commerce faculty 68 students and 07 staff members were participated in this activity. Dr. T.B. Nikam, Ex professor in Zoology who has establish the apiculture training center delivered two lectures on honey bee rearing, equipments, handling and introduction to bee products. The students were also trained to handle the hive frames.
