8. To know the role of Gramsabha in grampalika.
9. Platform providing training in healthy Democracy.

### **Technical Areas of Collaboration :**

- 1) It is necessary to create awareness of political institution among students, Pandit Nehru and Mahatma Gandhi have said that Grampalikas are the primary institution for political education.
- 2) In this democratic decentralization the last level of political structure is Grampalika. At this lowest level of democratic decentralization i.e. Grampalika, it is easy to know the problems of the people at rural level and it is easy to solve them as it is responsible for smaller subset of people.
- 3) Our political science department has started organizing visits to Gram Sabha as the part of syllabus, so that students will have a better understanding of its working. During these visits we try to know the structure of Gram Sabha and its functioning and better understand the development of rural area.
- 4) Being a citizen of this society, every student should have the knowledge of Gram Panchayat and its working, so our department tries to visit Ozar Grampalika and participate in its regular working.

### **Proposed mode of Collaboration:**

- 1) By organizing these visits students develop a better understanding of Gram Sabha and its working.
- 2) They aware of the local political body. They get to know the power, functioning and responsibilities of Gram Sabha.
- 3) They know about the funding agencies of grampalika.
- 4) They also get to understand that every person can directly participate in decision making process for local administration which eventually leads to development of rural areas.
- 5) Students become aware that each voter is a member of Gram Sabha and hence he himself is also responsible for the overall development of that particular rural area.

So for proper development of a particular rural area, every adult citizen should participate in Gram Sabha.
