ABOUT EasyNetway Service Private Limited (ESPL)

EasyNetway Service Private Limited is a dynamic & innovative company based out of Nashik with an immense experience in building converged next generation network. We are supplying & deploying advanced multi-service access solutions, guaranteeing seamless integration from traditional access networks to next generation network architecture.

ESPL offers high-performance network infrastructure that helps service providers, Corporates, Business Houses and Builders & Real Estate Developers create value and accelerate business success within the new, challenging global market place. Our integrated Network and Automation solutions are engineered for the carrier ad optimized for end user, providing inviting and reliable user experience throughout the connected homes and properties.

At EasyNetway Service Private Limited, we have researched and developed some of the industry's most groundbreaking innovations across every aspect of home automation and networking technologies. This includes a dedication to developing new; triple play IP based solutions on unique single architecture, single operating system, and single release train that ensures performance, reliability and security at the scale that customers demand of their network – without compromise.

Our leading edge technology and strong customer focus enabled us to become a major wire line and wireless access integrator. Our technology is superior, time tested and are used by major telecom operators across the world to build multi-services access networks and next generation network for covering a variety of services and applications.

EasyNetway Services India Pvt.Ltd.

The ESPL's Difference

ESPL – EasyNetway Service Private Limited.

ESPL is the leading Internet and Last Mile Service Provider in India, providing seamless services in Internet bandwidth solutions and related services for corporate as well as domestic user.

Supported by a superior networking technology from leading brands in the world like Cisco, Telmarte, LigoWave, Ubiquity, FTTH and Mikrotik all our services come with high speed, exceptional clarity and flawless connectivity.

Vision

Vision of EasyNetway Service Private Limited is to remain a dominant player in telecommunication sector in the Country while also extending reliable and cost effective services to all.

Mission

Today, our mission is to connect people with their world, everywhere they live and work, and do it better than anyone else. We're fulfilling this vision by creating new solutions for consumers and businesses and by driving innovation in the communications and entertainment industry.

Corporate Citizenship

ESPL strives to be an intellectual and social asset of the community and environment.

Corporate Governance

ESPL takes pride in its Corporate Governance and strives to continuously improve its processes in order to ensure a seamless and transparently functioning organization that creates immense value for all its stakeholders.

Network Aggregation and Integration - Wireless Wi-Fi Wi-Max

An efficient Wi-max or Wi-fi strategy establishment often translates into an accelerated return on your technology investment. Based on a proven delivery model, we are leading provider of integrated solutions for the design, upgrade and expansion of business networks.

Our network integration solutions ensure that your communication networks deliver the performance your business relies on. Our solutions can help you:

- * Tailor network design to respond to changing business requirements.
- * Improvisation complex network upgrades, refreshes, expansions and consolidations.
- * Improve network availability and performance.
- * Manage costs.
- * Simplify project coordination and accelerate implementation schedules.
- * Reduce the risks associated with making changes to the network.

Connectivity for IP VPN

With the increased need for information sharing between different geographies and security as the highest priority IP VPN is a boon. We offer the best facility to provide IP VPN to our clients who wish to have a seamless connectivity between their different geographic locations.

The entire network is connected over high-speed fiber backbone and offers multiple access technology options including wireless to the last mile. This unique approach allows customers to get connected quickly and easily with very short time lead, eliminating many of the hindrances encountered in traditional copper-based last mile connectivity provided by incumbent service providers. Our infrastructure is created using multiple technologies enabling customized connectivity solutions for its customers.

Advantages over other service providers

we provide an uninterrupted supply through our Security being the priority, we take care that our Clients user accounts are secured and no one else is allowed to breach into their network. We provide a 24/7 connectivity for ensuring there is no delay in sending or receiving information. We never compromise with the quality medium used. Needless to say we have covered nook and corner of the cities where we are presently working.

EasyNetway Services India Pvt.Ltd.

Why EasyNetway Service Private Limited?

Focus on corporate clientele: We understand corporate requirements and needs do vary. So does our solution. In order to serve you better, as a strategic decision ESPL will cater to the needs of corporate and business houses.

Hassle Free End-to-End Managed Network: Our network is completely managed, right till your premises. This helps us to ensure you better uptime, through put and higher grade of service.

Service Level Agreement: We provide Service Level Agreement, at your doorsteps-your LAN network. ESPL provides to its customer a commitment mean up time of last mile of 99%, assuring the customer high-grade quality and reliable service

24X7X365 operations: Our NOC in Nashik monitors the entire network 24x7. The entire link, including the last mile link connecting your premises to POP are monitored 7 days a week, 24 hours a day. Thus making sure our technical expertise is there to manage the network and offer our customers uninterrupted high speed connectivity.

Superior Customer service: We believe customer service should not be at a premium but an integral part of the product / service offering. Our Manager Business Development is your one point of contact. We have a multi-channel call logging system, which is being designed with proper escalation system.

Always Connected: Dedicated 24 x 7 Internet Access on always 'ON' Mode.

Speed: It will provide you and your business with fast access to the world of Internet.

COMMERCIALS

As per our conversations and our experience in networking technologies, we are pleased to give you quotation as per your requirements.
