2.2.1 - The institution assesses the learning levels of the students and organizes special Programmes for advanced learners and slow learners

The screening for the advanced and slow learners are recognized through the marks scored by them in previous year examination.

Students enrolled in the department are identified as slow and advanced learners based on the degree of marks obtained. This helps to identify the slow learners and to design special coaching sessions or tutorial sessions to bridge the gap between the slow learners and the advanced learners. Advanced learners and slow learners have identified as per their responses in the classroom as well as the performance in the Unit test, internal examinations.

Slow Learner: The departments use monitoring and mentoring to keep track of slow learners' progress. Along with teachers, some advanced learners are encouraged to mentor weak students and help them with explanations and notes. Revision classes and counselling sessions are held and additional teaching is taken up if required. Tutoring by peers, senior students, and mentors is offered. Corrected assignments and answer scripts are shared with each student and discussed to enable students to recognize their problem areas and improve. Faculty makes it a point to be patient and accessible to students personally, over the phone, mail, and social apps.

Following activities are done by teachers for students:

Slow learners:

1. Individual counselling.
2. Extra notes.
3. Group discussion session.
4. Internal examination process.
5. Encouragement in NSS, Sports, and academic activities.
6. Extra library books.

Advanced learners: Advanced learners are provided several opportunities to develop their knowledge and skills. These students are motivated to read advanced reference books, by providing additional library facilities. They are asked to solve the model question papers. They are given special guidance to perform better in the future.

The students are deputed to attend the University, State and National level seminars/workshops conducted in their special areas. So they get exposure in their concerned subject. They are encouraged to take part in the various competitions like Avishkar, (an innovative research project for students organized by Savitribai Phule Pune University, Pune) Science exhibitions, quiz, elocution, debate etc, in which they can prove their abilities. Many departments in the college conduct events to promote competitive spirit among advanced learners.

They are motivated to undertake online certificate courses in MOOC, NPTEL and SWAYAM. College has started NPTEL SWAYAM Local Chapter

	MARATHA VIDYA PRASARAK SAMAJ'S ARTS, SCIENCE AND COMMERECE COLLEGE, Ozar (MiG) Tal: Niphad, Dist: Nashik. 422 206 (Maharashtra) Phone No.(02550) 275219 Email ID Senior College: srcollege.ozarmig@mvp.edu.in Website : www.mvpozarcollege.edu.in NAAC Accreditation (Third cycle) B++ with(CGPA 2.77)

Ref. No. /2021-22	Date- -2022		

Advance learners:

1. Advance notes
2. Seminar i.e., Self-Discipline sessions
3. Participative learning sessions Day & Teachers Day
4. Experimental learning sessions i.e., Industrial Tour
5. Projects
6. Assessments
7. Group discussion sessions
8. Internet facility.
9. Advance questions papers. In order to enhance their confidence level, the department conducts different activities such as NSS, Cultural, and Sports to develop their overall personality.

Department of Mathematics
Name of the Activity- Mathematical Software Sci-Lab

Introduction- Scilab is a high-level, numerically oriented programming language. The language provides an interpreted programming environment, with matrices as the main data type. Scilab is software for numerical computation providing a powerful computing environment for Engineering and scientific applications. A large number of functionalities is included in Scilab: Control, simulation, optimization, signal processing, Numerical analysis or scientific computing

Applications-

- 1) Scilab provides about 1,700 mathematical functions for engineering and Science including mathematical operations, data analysis. 2-D and 3-D graphs
- 2) Scilab provides standard algorithms and tools for control system study.
- 3) It also used in data structure such as polynomials, matrices and graphic.
- 4) Scilab provides graphics functions to visualize and export data and offers many ways to create and customize various types of plots and charts like Lines, Pie Charts, Histograms & Surfaces.
- 5) The software can be used for signal processing, statistical analysis, and image Enhancement, Dynamics simulations and numerical optimization.

Methods in Scilab are generally used are

- 1) Interpolation and regression, 2) Differentiation and integration, 3) Linear systems of Equations, 4) Fourier analysis, 5) Ordinary differential equations 6) Matrix computation (Determination of Eigen values and singular values)

SciLab

Department of Mathematics
Name of the Activity- Mathematical Software Python

Introduction: = Python is an interpreted, object-oriented, high-level programming language with dynamic semantics developed by Guido van Rossum. It was originally released in 1991. Designed to be easy as well as fun, the name "Python" is a nod to the British comedy group Monty Python.

Applications-

- 1) Python is commonly used for developing websites and software, task automation, data analysis, and data visualization. Since it's
- 2) Python is relatively easy to learn, Python has been adopted by many non-programmers such as accountants and scientists, for a variety of everyday tasks, like organizing finance
- 3) Python is used by Intel, IBM, NASA, Pixar, Netflix, Facebook, JP Morgan Chase, Spotify, and a number of other massive companies. It's one of the four main languages at Google, while Google's YouTube is largely written in Python. Same with Reddit, Pinterest, and Instagram.
- 4) Python is one of the rearmost technologies taking over the world. Thus Python is one of the most-suited languages for Artificial Intelligence.
- 5) From healthcare to retail, Python can do multiple job across various industry verticals.

Methods in Python can be done are -

- 1) Iterations and Conditional statements
- 2) Linear Algebra
- 3) Newton-Raphson Method, False Position (RegulaFalsi) Method, Numerical Integration, Trapezoidal Rule, Simpson's Rule
- 4) 2D and 3D Graphs
- 5) Turtle Graphics etc. .

Maratha Vidhya Prasarak Samaj's
Art's Science and Commerce College, Ozar (MIG)
Department of Mathematics
Name of the Activity- Mathematical Software Latex

Introduction: LaTeX, is a document preparation system for high-quality typesetting. It is most often used for medium-to-large technical or scientific documents but it can be used for almost any form of publishing. LaTeX is a free software package created in 1985 by the American computer scientist Leslie Lamport as an addition to the TeX typesetting system

Applications-

- 1) LaTeX is free software used to create formatted documents (such as PDF or DVI files) for technical writing (such as scientific research papers).
- 2) When using LaTeX, you create a plain text file with markup tags for things like text in bold or italic, as well as symbols (such as π and $\sqrt{\quad}$).
- 3) LaTeX files contain markup language that enables them to be readily converted to other outputs (e.g., PDF or HTML), allowing you to change or share your document more easily than if it was in another format.
- 4) LaTeX is hands down the document format most commonly used among mathematicians at the present time. This means it is easy to share documents with others and to collaborate with co-authors.

"Financial Literacy Mission"

2019-2020
2019-2020
2019-2020

SEBI Investor Education and Protection Fund (SEBI IEPF) has initiated a "Financial Literacy Mission" to educate the general public about the benefits of investing in the stock market and to help them make informed decisions.

We request you to participate in "Financial Literacy Mission" of India.

This mission is to be implemented under the SSEIF scheme initiated by SEBI for the purpose of financial literacy.

Objectives of the mission:

- Introduction to equity and debt markets
- Basic financial literacy, offering an insight into Risk and Return, Power of compounding, Time Value of Money
- Choosing suitable investment instruments
- Importance of diversification with various products available
- Awareness of various financial products available
- Importance of long term investment
- Understanding of various opportunities in Indian Financial Market

Activities to be carried out:

- Awareness programmes through seminars, workshops, road shows, etc.
- Awareness programmes through TV, radio, print, etc.
- Awareness programmes through social media, etc.
- Awareness programmes through various other channels

Appropriate arrangements for the participating financial institutions should be made.

We request you to kindly be aware of the details on the website which is given to you while the mission is being conducted and to help in proper implementation of the mission. We have your cooperation and the mission will help us achieve the objectives of the mission.

This initiative is exclusively for financial awareness and not for the advertisement of any financial product.

Waiting for positive reply.
