AUTOLIB SOFTWARE SOLUTIONS

VISION

To become one of the best and trusted software and IT solution providers

MISSION

- To promote application of IT for knowledge sharing

- To provide IT solutions to academic institutions, Libraries and other sectors at an affordable cost

- To provide total Library Automation Solution to all type of Libraries by integrating modern Technologies

- To contribute for the development and Advancement of Library and information Science and Technology

- To encourage LIS professionals those who contributes to the profession by giving awards

- To maximize the customer satisfaction by providing timely and quality service to our customers

ABOUT US

Founded in 1998, AutoLib Software provides quality information products and IT services to over 500 clients Internationally. AutoLib Software established itself quickly as a leading technology solutions provider to Academic institutions, Libraries & Information Centers, as well as other industries.

AutoLib Software's flagship product is AutoLib Library Automation and Management software, which is the leading solution for academic institutions internationally and is a total Library Automation Solution Provider.

AutoLib CampuSConnecT Software, another AutoLib Software product, is ERP campus software designed and developed based on industry standard to automate all the academic activities in a campus. CampuSConnecT also tracks student entry and exit from campus.

AutoLib Software Systems provides a full spectrum of customized software solutions, including QA testing and Production Support and in 2016 also included mobile application development on Android and iOS to it's service offerings.

The AutoLib team has extensive expertise and proven experience in implementing technology projects on-time and on budget.
