3.2.1 - Institution has created an ecosystem for innovations and has initiatives for creation and transfer of knowledge

Innovation Ecosystem and other Initiatives

The college fosters and cultivates a culture of innovation and endless need for knowledge in young individuals through academic, research, and extension endeavours. The primary goal of the Eco-System for innovation is to foster creativity and innovation among students and faculty members, while also facilitating the advancement of creative systems, processes, products, technologies, and services for the betterment of society.

The college actively engages in many development initiatives aimed at promoting research endeavours among both faculty and students. The college has established a learning environment that focuses on practical-oriented teaching methods, including the use of case studies, expert interactions, industry visits, real-time projects and dissertations, debates, competitions, management activities, business models, and role plays. As part of the curriculum, students undertake projects in their particular fields of study. The college's classrooms are furnished with state-of-the-art ICT and multimedia systems.

The library is additionally furnished with electronic journals and a digital library, providing the staff and students with the means to access and stay updated on information and knowledge. Students will be allocated a designated timeframe to analyse and answer the challenge they will present in the classroom. The many departments are organising workshops, seminars, and guest lectures. Professionals from several fields are invited to deliver guest lectures and seminars, sharing their expertise and experiences with students to enhance their understanding. Students are driven to participate in many intercollegiate festivals and other cultural activities in order to strengthen their skills and capabilities.

The teachers are strongly encouraged to participate in seminars and conferences, as well as to present and publish articles in both national and international journals. In order to facilitate the transfer of knowledge, digital technology is employed alongside the conventional way of teaching, which includes the utilisation of LCD projectors, information and communication technology (ICT), online assignments, and electronic versions of study materials.

Both the teaching and non-teaching staff are encouraged to enhance their qualifications. Faculty members are urged to conduct high-quality research. Over the past few years, a substantial number of faculty members have been enrolling for Ph.D. programmes, and this trend continues to grow. Twenty faculty members have been awarded Ph. D.

Arts, Science and Commerce College
Ojhar(Mig), Dist. Nashik-422 206

The College preserves an authentic structure of the innovative environment. The following are the vital ideas initiated by the college for the creation and transfer of Knowledge.

Internship Programme: This programme offered for Third Year Commerce and 98 students are participated in this programme.

Research Publication: Faculty members and students are motivated for research writing and publication. Faculty members published their research papers in UGC Care and International Research Journals. Total 32 research papers have been published in 2022-2023. Apart from this some faculty members published their research articles in book chapters.

The Project Method: The project work stimulates student's interest on the subject and provide student an opportunity of freedom of thoughts and free exchange of different views. As per the requirement of syllabi, the project work is done. For example, the Projects are done classes. In different courses 359 students completed project work.

Field/Industrial Visit: A field study is a general method for collecting data about users, user needs, and product requirements that involves observation and interviewing. Data are collected about task flows, inefficiencies, and the organizational and physical environments of users. In this academic year 44 students completed field /industrial visit successfully.

Interactive methods/participative Learning: The faculty members make learning interactive with students by motivating student participation in group discussion, roleplay, subject quiz, news analysis, educational games, discussion and questions and answers on current affairs, etc. Class room discussion in various topics is done under features. Especially, NSS, Political science department organize interactive methods many times in a year.

ICT Enabled Teaching: ICT enabled teaching includes class rooms with LCD, Language Lab, etc. The institution adopts modern pedagogy to enhance teaching learning process. The institution has the essential equipment to support the faculty members and students.

Avishkar: Avishkar is the State Level Inter-University Research Competition. An objective of this competition is to inculcate the research culture among the students and encourage them further to convert their ideas into physical reality. In 2022-2023 total 43 groups were participated and presented their research project.

Guest Lectures: Guest Lecture is a concept that helps the students in gaining additional knowledge. Many students love the concept of guest lectures as it is an interesting way of learning and interacting with new people at the same time. Such events and lectures help in enhancing the communication skills and many other skills of the students.

National Conference: In the Academic Year 2022-2023, the College hosted a national-level conference on the National Education Policy (NEP). This conference provided opportunity to students and research scholars to present their research ideas by presenting research articles. Students have the chance to engage with other faculty members and exchange their thoughts.

Digital Library/INFLIBNET: The N-LIST project provides access to e-resources to P.G. students, researchers and faculty from colleges through server(s) installed at the INFLIBNET Centre. The authorized users from colleges can access e-resources and download articles required by them directly from the publisher's website

IKS: The objective of the Indian Knowledge System is to safeguard and commemorate ancient languages and culture. Our college celebrates *Marathi Bhashara Pandharwada* as part of IKS. In addition, it periodically commemorates local festivities.

Subject: Invitation as a resource person for delivering the lecture to M. Sc. chemistry students...

Dear Sir,

With reference to above mentioned subject to enhance the knowledge of students in organic chemistry, we are glad to invite you as a resource person and requesting to share your ideas and principles in organic chemistry with our M. Sc. students. According to our telephonic talk the detail schedule of the lecture is as below:

Day and Date	Time	Topic
Friday, 12/11/2022	2.00 P.M. to 4.30 P.M.	Reaction Mechanism in Organic Synthesis

We hope you would be able to fit this event in your busy schedule. The students and teachers will benefit a lot from your expertise topic.

Thank with regards

Avishkar Research Competition

2022-23

In order to promote research and innovation among the students, the Invention Research Competition was organized at MVP Samaj's Arts, Science and Commerce College Ozar, Mig on 15th September 2022. The competition was inaugurated by the principal of the college, Dr. S. S. Kale. Savitribai Phule Pune University organized this competition for the first time after the global epidemic of Covid-19. The competition received huge response from the students and professors of all branches of Ozar College. Under the guidance of various professors of the college, the students expressed their ideas through an invention competition. In this, 10 groups from arts department, 7 groups from commerce department, 16 groups from science department and 1 group from art department, 4 groups from science department and 5 professor researchers from teacher group participated in this. A total of 43 such groups participated in this competition. On this occasion.

The principal of the college Dr. S.S Kale in his presidential speech said that such competitions are needed to awaken innovation and research attitude among students. He also said that innovation and entrepreneurship will increase from such a competition". Introductory educational research coordinator of the said competition Dr. Bhadane explained to the attendees the theoretical role of the university behind the said competition and guided them about research and innovation. He also said that "invention competition is an important opportunity with personality development." For this competition, the first year degree level students of the college will be evaluated by Prof. Dr Y. M. Salunkhe (Vice Principal and Head of Department of History Vani College) and Prof. Dr. N. U. Patil (Physics Department Head, Pimpalgaon Baswant College) along with Principal Dr. S. S. Kale, Vice Principal Dr. Yuvraj Jadhav, all the senior and

junior level students of the college, head of department professors and non-professor staff etc. were present in large numbers.

The inaugural program was coordinated by Prof. B. N. Shelke thanks Prof. for the program. Mrs. V. S. Shimpankar delivered a vote of thanks.
