

Department of Chemistry Farewell cum Fresher's Party 2022-23

Farewell cum Fresher's Party 2022- 23 was organized on dated 20th May 2023 in a grand way at Seminar Hall at our college. For this function, we invited our Principal Dr. P. R. Bhadane sir as Chief Guest along with Dr. Y. P. Jadhav Sir. All year students were gathered at 10:00 am and after that program started. Dr. P. R. Bhadane shares his memories with us and Dr. S.R. Labhade sir motivates us to make our own decisions for our future. Our Vice- Principal Dr. Y. P. Jadhav sir motivates all students by giving inspirable speech. Various games were conducted for fresher's and farewell students too.

Farewell, is just another way of musical and happy interaction between seniors and juniors. It is the time when juniors bid adieu to the seniors with their best wishes for their future. It is the time when every one of the seniors feels a sense of respect, love, and hope from their juniors. Hopes!!! That once we go out into this world, we will do something good for our juniors, rather than taking it as our moral responsibility to open new gates for the juniors.
